WATER DEWPOINT UPDATE 12:00 hours 1st October 2003

Following a continued improvement in water dewpoint measurements at Zeebrugge Terminal, Interconnector has increased the flow rate through the pipeline to an equivalent of 4.4 bcm/y (from 3). This increase took effect at 12:00 hours CET.

A profile pig launched from Bacton shortly after 4pm on Monday 29th September is expected to arrive in Zeebrugge Thursday morning.

A further media release will be made at 16:00 hours on Friday 2nd October or earlier in the event of new information becoming available.

INTERCONNECTOR (UK) LIMITED – BACKGROUND

Interconnector (UK) Ltd (“IUK”) operates a sub-sea pipeline and terminal facilities connecting the UK and continental Europe. The company’s 40” diameter pipeline stretches 230 kilometres between Bacton in north Norfolk and Zeebrugge in Belgium. It is presently capable of transporting 20 billion cubic metres a year (bcm/yr) from Bacton to Zeebrugge and 8.5 bcm/yr in the opposite direction.

Owned by ten major companies IUK has sold capacity in the pipeline to numerous gas shippers. A dedicated and award winning IT system, ISIS, manages the volumes and flows and provides constantly updated information to IUK and its customers.

Further information on IUK can be obtained from www.interconnector.com
