24<sup>th</sup> July 2003

### **SHORT TERM FLOW CESSATION**

Interconnector (UK) Ltd. has advised customers of a cessation of flow from the Transco network between 09:00 hours and 14:00 hours BST on Thursday 31<sup>st</sup> July 2003. This flow cessation is to allow Transco to remove solids, generated in Transco's recent pigging operations, which have accumulated in the Transco terminal adjacent to the Interconnector pipe work.

Flows from SILK (Seal Interconnector LinK) to Interconnector will be unaffected by this operation.

### **INTERCONNECTOR (UK) LIMITED – BACKGROUND**

Interconnector (UK) Ltd, or IUK, operates a sub-sea pipeline and terminal facilities connecting the UK and continental Europe. The company's 40" diameter carbon steel pipeline stretches 230 kilometres between Bacton in north Norfolk and Zeebrugge in Belgium. It is presently capable of transporting 20 billion cubic metres a year (bcm/yr) from Bacton to Zeebrugge and 8.5 bcm/yr in the opposite direction.

Owned by ten major companies IUK has sold capacity in the pipeline to gas shippers. A dedicated and award winning IT system, ISIS, manages the volumes and flows and provides constantly updated information to IUK and its customers.

Further information on IUK can be obtained from [www.interconnector.com](http://www.interconnector.com)
