Total Cost in Either Direction: IBT Charge + IZT Charge (for Gas Year 2018-19 = 1.1p/th)

**SHORT TERM PRICES FROM 1 OCTOBER 2018**

Whilst this capacity is not currently available:

- the combined entry plus exit charges for monthly capacity are expected to be around 2p/th;
- the daily capacity charges are expected to be more expensive than the monthly capacity charges.

These are indicative prices and will be subject to change.

**REPROFILING AND SIMPLIFICATION CONVERSION SERVICE**

IUK have submitted proposals for these new services to Ofgem and CREG for approval and will publish more information following the NRA decision.

*All of IUK's tariffs are subject to NRAs approval of the Charging Methodology.*
